THE NEW-YORK LEGISLATURE. ARRIVAL OF MEMBERS-CAUCUSING AND CAN-VASSING FOR SPEAKER OF THE ASSEMBLY

ALBANY, Jan. 5.—The parlors and halls of the Delevan House were as much given up to the Democratic politicians yesterday and to-day as they were to those of the Republican faith one year ago. Sunday was no day of rest to the candidates for the different offices to be filled on Tuesday. Those desiring to be Speaker, of course had the biggest share of work, but the New-York City men proved that they were the masters, and the indications at midnight are that to-morrow night they will give Democratic nomination to their colleague, Wm Hitchman. The opponents of this gentleman, John C. Jacobs of Brooklyn, John L. Flagg of Troy, and Wm. S. Clark of Schoharie, and their friends, have worked hard to beat him, but Tammany Hall, reënforced by all the promiment leaders throughout the State, was too much for them. Mr. Hitchman's case was managed by Wm. M. Tweed and Peter B. Sweeney, and they have worked so incessantly and advantageously that there seems to be no doubt of Mr. Hitchman's selection. In the first place, he will poll on the first ballot 20 votes from your city, and will be reënforced by enough of the river county and extreme Western men to give him not less than 32 votes to start with; 37 is all that is required, and after Clark gets five complimentary votes from his own and adjoining countles, these will go over to Hitchman; Jacobs will scarcely poll over 20, and the balance will go for Flagg. Efforts have been made to form a combination between the friends of Jacobs, Clark, and Flagg, but without success. The Hitchman manage ment has been too shrewd and perfect to allow this The caucusses of both parties will be held to-morrow night, and it will be almost an impossibility to defeat Mr. Hitchman. This gentleman is a member of the Constitu-

The principal candidates for Clerk are Cornelius Armstrong of Albany, E. O. Perrin of Queens, and H. J. Sickles of Orleans, and Mr. Armstrong is certainly the strongest candidate. The only thing that can defeat his election is the selection of Flagg as Speaker, which is improbable. Mr. Sickles is pressed by Sandford E. Church, while Mr. Perrin relies on his services at the

Democratic State Convention.

There are a couple dozen applicants for the position Bergeant-at-Arms and Door-keeper, but the canvass for these is swallowed up in that for the better offices.

Geo. Wakeman of New-York will, in all probability, be the unanimous choice for stenographer, for both parties are satisfied that he is the most competent gentleman for the difficult position. The Republican caucus of Assemblymen will nominate

by acclimation all the officers of last years House, Speaker Pitts, Clerk Caldwell, Sergeant Kemper, and the Door-

cratic Senators as their candidate for Clerk of the Senate.

James Terivilliger will be elected by the Republicans, and it is likely there will not be any change in the Sergeant-at-Arms' position. There may be in that of Post-

The leaders of the controlling party, such men as Sweeney, Tweed, Cogger, and Church, say that so far as they can control it they intend to make this an economical legislature, and when it closes its session its reputa tion will be far better than that of its predecessor. The argument they use is that the people of the State have given them a very large share of their confidence, and that if it is not abused the people will not forget it at the next election. It is of course to be seen whether the rank and file will take this advice, but certainly it has not disheartened the lobbyists, who are here in full strength. Nearly every great scheme that was before the last Legislature, except the Central Fare bill, is here represented. Jacob Sharp, the Broadway Surface leader, has been at work since Thursday; while Carey, who runs the Crosstown Railroad measure (twice defeated through Gov. Fenton) is as busy as a boc. All these parties take an interest in the Speakership fight, because they want to have their repre sentatives on the Committees. It is understood that Vanderbilt will not ask for any special privileges this session for the Central. The Broadway Surface folks, It is given out, will not use their tactics of last year first to try to pass their bill, and, failing in this, to smother any underground road, but they will make a straight fight against the latter for the first. The State Central Committees of both parties meet here

this week to call their State Conventions to appoint delegates to the National Convention. The Republican Committee will meet first. The Gevernor's Message will go in

Matthew T. Brennan is the first Democratic candidate in the field for the vacancy of the Police Commission.

ALBANY, Jan. 5, 1868.

Both branches of the Legislature will meet at the Capital at 11 o'clock Taesday morning. The Governor's Message will be transmitted to the two Houses about noon on Taesday. The annual reports of Controller and Auditor are not yet completely printed.

Already there is a large attendance of the Democratic members, and the contest for the Speakership is quite animated. The candidates named are Hitchman of Now-York, Flagg of Troy, Jacobs of Kings, Clark of Schoharie, and Lounsbury of Ulster. Hitchman, with the New-York, delegation in his favor, is apparently ahead, but both Jacobs and Flagg show considerable strength among the members and with prominent outsiders. Col. Keady of Kings has withdrawn as a candidate.

The candidates for Clerk are Armstrong of Albany; Sickles of Albon; Perrin of Kings, and Parkhurst of Rome-Armstrong seemingly the strongest.

The candidates for Sergeant-at-Arms are Jared Sandford of Seneca, and H. F. Vanhorn of Montgomery. For deorkeepers and other suberdinate offices there are many candidates.

The cancus will be held in the Assembly Chamber tomorrow evening.

The Republican Senatorial causus will result in the redlection of James Terwilliger as Clerk, and probably in the appointment of most of the offices of the old Senate.

Judge John K. Porter has resigned as one of the Judges of the Court of Appeals. He proposes going to New-York to resume practice of the law.

THE NEW VOLCANO NEAR THE CITY OF LEON. Washington, D. C., Jan. 4.-The following letter has been received by the Secretary of State from the Hon. A B. Dickerson, United States Minister to Nicaragun, dated Lenn, Dec. 4, 1867 :

letter has been received by the Secretary of State from the Hon. A B. Dickerson, United States Minister to Nicaragua, dated Leon, Dec. 4, 1867;

Sur. On the 18th of November last a new volcano broke out in Nicaragua, about eight leagues to the east of the city of Leon, on a crowded line of volcanoes running through the State parallel to the Pacific coast. It commenced about one o'clock in the morning with a succession of explosions, which were distinctly felt and heard at Leon. These explosions opened a fiscent through the earth crust about half a mile in length, running from the old fissure in a south-west direction, about midway between the extilect volcanoes of Las Plass and Orota, which are two of the last Plass and Orota, which are two of the last Plass and Orota, which are two of the last Plass and Orota, which are two of the last Plass and Corta, which are two of the last Plass and Corta, which are two of the last Plass and P

until they become small broken rocks. Around the base of the cone round heavy rocks lie thickly scattered from four to five feet in diameter, but much the larger portion of them have been broken into fragments. The cone itself is 200 feet in height, with a crater in the top 200 feet in diameter and about the same in depth. The inside of the crater, the same as the inside, is covered with hard broken rocks generally less than a foot in diameter. A long ridge of black scoria leads out from the branch crater, in a north-easterly direction. The slaggy, lava-like scoria which first issued from the main crater is now principally covered up by bard platonic rocks which came out from the profounder depths with the last discharges. The forest for leagues around is scarred and maimed by the sharp-catting storms of sand, and near the volcano the trees he cut into nimerous fragments, half buried under the sand and rocks. The volcano was an active and interesting sight for sixteen days, and now in its repose affords an ample and instructive field for the geologist. Indeed no country in the world presents a more interesting study than the plain of Leon. Twenty volcanic cones are seen rising from it at a single view. Its soil is exhausted in fertility, as finely pulverized and as evenly distributed as that of the valley of the Nile or the Mississippi; not, however, by water, but by fire! It has literally rained down from the volcanos, richly freighted with fertilizing materials. Humboldt regreited before his death that men of science had not more fully investigated this remarkable region of country, and it is sincerely to be hoped that it may not much longer remain neglected by them. The recent fall of sand has been followed by a shower of rain; and though but a few days have since elapsed, corn, cotton, and grass have grown more rapidly under its fertilizing influence than I have ever seen plants grow before. Some weeds and plants it kills; others it starts forth with renewed life and vigor. I send herewith a specimen of the

## THE LOUISIANA CONVENTION.

NEW-ORLEANS, Jan. 4.—An ordinance was passed in the Convention to-day, fixing a penalty of 25 per cent and 19 per cent per month for default of payment as prescribed. Article 14 was adopted, as follows: "The rights enumerated in this title shall not be construed to limit other rights of the people herein expressed." Articles 15, 16, 17, and 18 define the qualifications of State legislators, the length of their term, the place of meeting, &c. The Finance Committee reported its inability to make a loan, and asked to be discharged. No action was taken on this. Mr. Cromwell (colored) offered a resolution to appoint a committee of three to inform Congress that the Convention had been in session 31 days, without heing able to raise means to defray expenses; also, that the Convention adjourn until the views of Congress upon the matter be ascertained. This created considerable confusion, and the Convention finally adjourned until Monday. The State Auditor and Treasurer have been notified not to pay the public printer or other creditors of the Convention, until the officers and members themselves shall be paid.

RICHMOND, Va., Jan. 4.—In Convention to-day the following resolutions of inquiry were referred: For limiting the time of hired labor to eight hours; for settling all debts incurred previous to April, 1865, at 25 cents on the dollar; for levying a poli tax; requiring for

eigners to reside in the State 10 years before voting; for legalizing the birth of children born of parents in slavery, so that they may inherit property; for admitting colored persons to colleges; for selling the Military Institute and devoting the proceeds to the Educational Fund. The newspapers were severely denounced for misrepresenting the speeches of the members. The Convention adjourned.

THE ATTACK UPON JUDGE BUSTEED.

TION-PUBLIC FEELING IN MOBILE.

From The Mobile (Ala.) Advertiser and Register, Dec. 29. Judge Busteed of the United States District Court was suddenly and unexpectedly attacked and shot yesterday, by Mr. L. V. B. Martin, District-Attorney.

Judge Busteed of the United States District Court was suddenly and unexpectedly attacked and shot yesterday, by Mr. L. V. B. Martin, District-Attorney. From eye-witnesses we gather the following regarding the immediate circumstances of the shooting:

e About 24 yesterday morning Judge Busteed crossed the street directly from the Battle House toward the Custom-House, Mr. Martin was standing in front of one of the granite blocks at the southern entrance of the Custom-House, facing the street, and as Judge Busteed placed his foot upon the curb-stone of the side-walk, Martin leveled a revolver and fired at him, the ball striking just below the breastbone, and knocking him down. He fell backward, outside of the pavement, with one foot lying thereon, and Martin then advanced and deliberately fired two more shots, one of them striking the right leg below the knee and passing up into the thigh, several inches above the knee, whence it was afterward extracted by the surgeons. The affair, of course, created immense excitement on the streets in the neighborhood of the occurrence, and we doubt whether the dastardly assassin could have safely passed through the excited crowds that througed Boyal-st, for several hours after the affair. The wounded man was conveyed to the office formerly occupied by Dr. Nott, on St. Francisch, and afterward to his room in the Battle House, and was aftended by Drs. Ketchum and Gilmorre; perhaps other physicians assisted. It was found that the wound in the stomach, which was at first supposed to be fatal, was not necessarily so, and his condition is considered by his physicians assisted. It was found that the wound in the stomach, which was at first supposed to be fatal, was not necessarily so, and his condition is considered by his physicians highly favorable. His pulse is strong and regular, and he suffers very little pain from his wounds.

MILITARY ASYLUM IN MAINE.

AUGUSTA, Me., Jan. 5.—The Military Asylum at Togos, five miles cast of here, is in flames. It caught fire at 9 o'clock this evening, from a defect in the flue in the furunce, and the entire building is destroyed. The ANOTHER ACCOUNT. United States Commissioner, rushed up and seized him by the throat. Martin had not spoken a word, but, recognizing Turner, he attempted to shoot him, but failed, owing: to the interference of another gentleman whose name we have not discovered, and who wrenched his platoi from his hand. It is a Colt's revolver, and carries a heavy ball. The attempted murderer was turned over to the hands of Officers Scott and Bressingham, and by them taken to the guardhouse, where he is now in confinement. The Judge behaved with the utmost coolness, and only remarked, after being helped to his feet by Col. Harry Maury, that he had been shot. With the assistance of Col. Maury he walked to the office of Dr. Nott, where his wounds were examined by Dr. Gilmore.

The general impression among all who had witnessed the scene, was that it was a most cowardly attempt at murder, and that Judge Busteed was attacked without warming, and was not allowed the smallest chance for his life. If Martin had not been carried without delay to the guard-house, it is probable that he would have been lynched.

The wisomer is understood to have had very hitter feel.

the guard-house, it is probable that he would have been lynched.

The prisoner is understood to have had very bitter feeling toward Judge Busteed for some time back. Yesterslay the prisoner approached the Judge in the Custom House, and in an exciting tone said: "Judge Busteed, I wish to see you." The Judge replied, "I am here, and can see you now." Martin said, "No. Sir. Judge Busteed, I wish to see you on the street." To which the Judge replied, "I do my business in my office and not on the street." Martin said, "Sir, I shall see you on the street." Judge Busteed is a man of great personal courage, and gave himself no alarm about his threat, proceeding in his usual calm way with his affairs, and taxing no precautions for protection or defence. He does not appear to have been armed at the time of the assault upon him, and was unable to make any defense. When taken into custody, Mr. Martin is reported to have said that the difficulty between him and Busteed is one of long standing, and that he had notified the Judge was not armed Mr. Martin says that it was his own fault.

About 16 minutes before the shooting, Mayor Withers met Mr. Martin and asked him some questions in relation to official matters before the Court. He received some information from that gentleman and immediately passed on. Having been accosted by Col. Maury, he stopped on the corner to converse with that gentleman. Mr. Martin's manner, at the time Mayor Withers spoke to him, was cool and collected, and neither Gen. Withers nor Col. Maury had the slightest idea that there was a difficulty between him and Judge Busteed. Neither of them saw the Judge, and the first intimation of what was going that they had was learning the first pistol shot in front of the Custom House. Immediately after the adjournment of the Mayor's Court, Mayor Horton proceeded to the guard house where District Attorney Martin was confined. Mr. Martin, acting on the advice of his counsel, waived an examination, and Sheriff Granger conveyed Mr. Martin to the jail, where he is now confined. He will remain under close confinement, as a matter of course, until Judge Busteed is sufficiently recovered to preclude ali idea of danger from his wounds. About 10 minutes before the shooting, Mayor Withers

PRACTICAL BENEVOLENCE-THE POOR AT MR. JOHN W. FARMER'S INSTITUTE.

Mr. Farmer's "Strangers' Resort" was filled to overflowing yesterday by a class of persons whose poverty and wretchedness virtually exclude them from poverflowing yesterialy by a class of persons whose poverty and wretchedness virtually exclude them from association with their more fortunate neighbors. About 260 persons of almost every nationality were gathered yesterday, chatting and talking of their prospects. To a casual observer the question would naturally suggest itself: "Is there no way by which these poor men could be made to assist each other?" This identical question was raised yesterday, and response was made by Mr. Robert Crowe, substantially as follows: "Boys, nothing is more appropriate occupation on the Sabbath than to be engaged in practical benevolence; and though you may receive valuable aid from those who are able to render it, yet if you can help each other you will receive a double blessing." After touching upon the former condition of many of his hearers, some of them born and reared in luxury, but impoverished by the lottery of trade in New-York, Mr. Crowe spoke of men who, by the force of their own indomitable will, had subjected eircumstances to their purposes, when others had falled. He closed his remarks by the following proposition: "Let each one here deposit ten cents with Mr. Farmer, and let the sum thus obtained be given to such one of your members as may received with appliance, and 100 names were immediately registered. Some fortunate member is to receive at least 410 next Sunday, and 99 poor fellows will have the satisfaction of assisting one of their needy friends.
